

Reduce your frustration with spreadsheets, replace old FRx software or upgrade from Management Reporter with a single, unified CPM solution designed to track the financial health of your company

7 Reasons

Why Prophix is a better alternative to Excel, FRx and Management Reporter

Microsoft
FRx

1 Reports:

Finance is no longer at the mercy of IT. With the ability to generate, manage and share reports on demand, report creation is easy and dynamic.

7 Seamless:

Save time and money. Managing multiple software infrastructures is expensive and time-consuming. Using open database technology, Prophix CPM software integrates fully maximizing your Microsoft investment.

6 Automated report maintenance:

No number is left behind. Dynamic hierarchies ensure all numbers accounted for in a report and plan, unlimited roll-up structures.

5 Financial consolidation:

Managing access to your data, has never been so easy. Execute multi-site or multi-company consolidations to meet the most rigorous accounting requirements.

2 Integrated reporting and planning:

Solve accuracy issues. Multiple solutions that use different sets of data can be problematic for accuracy. Prophix software is a unified CPM solution for budgeting, forecasting, reporting and financial consolidation.

3 Operational reporting:

Connect all the data. Prophix easily integrates data with any external ERP or non-financial databases. Create detailed operational plans and reports and track other metrics, outside of finance.

4 Workflow:

Control report distribution. Create a controlled multi-user collaboration forum to contribute, review, approve and/or reject planning data. Always know where things stand with audit capabilities and email notifications.

The Prophix Difference

Prophix has experience across every market segment. We offer a flexible and powerful solution to meet the needs of today's leading businesses. After all, we're the Corporate Performance Management experts.

Data Integration
