"We've had a great experience using Prophix's software as the fundamental data warehouse to generate P&Ls for our 40+ global locations. With our Prophix solution, we analyze the effect of our project spending, assess customer profitability, and conduct all of our financial consolidation."

Tom Schmitt
Vice President, Business Technology
Convergent Technologies

Our Solutions

Budgeting

Automate the creation of accurate budgets, incorporating inputs from across the organization to produce a polished document. Eliminate errors, increase collaboration and free up time for valuable analysis.

Financial Consolidation

Precisely consolidate company financial results across business units, territories and currencies, offering insights into the organization's true financial position.

Forecasting

Leverage your past performance and your understanding of emerging trends to see into the future. Generate daily, weekly, annual, or multi-year forecasts (and reforecasts) to keep your plans current and accurate.

Analysis

See your company's financial position from a high level or down to the most granular details, and adjust accordingly. Fully integrate financial and non-financial data to manage your organization proactively.

Reporting

Use templates to automatically output financial and operational reports that are auditable and secure. Easily view supporting details and export to the file formats of your choice – Excel, PowerPoint, Word, or PDF.

Cash Flow Planning

Understand how your financial performance aligns with your cash position, enabling your executive team to properly time their investments, ensure that purchases coincide with organizational objectives and improve communications with your banks.

About Prophix

Prophix develops innovative software that automates critical financial processes such as budgeting, planning, consolidation and reporting—improving a company's profitability and minimizing its risks. Thousands of forward-looking organizations in more than 90 countries use software from Prophix to gain increased visibility and insight into their business performance.
